CONCORDEX
OF THE
URANTIA BOOK

THE FOUR most asked, and poorly answered, questions on earth are these:
  Who am I?
  What am I doing here?
  Where am I going?
  What's life all about, anyway?

TO COMMAND the answers to these and 1000s more vital questions in the unparalleled stores of wisdom in the 2100 pages of the URANTIA REVELATION*, you need this CONCORDEX. Herein are some 50,000 lines of reference — over 100,000 designated locations to quarter-pages.

The CONCORDEX opens up the substance of the vast URANTIA revelation to all who hunger for truth, guidance, illumination, and inspiration, in this confused and chaotic world.

The cosmic education in the URANTIA BOOK'S million plus words is unequalled on earth. To be able to find, and to relocate, what you want in it, the CONCORDEX is a MUST, its readers say. (See jacket flaps.)

Only in the URANTIA BOOK is a conclusive synthesis of "science, philosophy, and religion", of "reason, wisdom, and faith", of "past, present, and future", of one God of mind, spirit, and energy (matter).

The most important investment you can possibly make is in your mind and your immortal future... hence in the DIVINE revelation, the URANTIA BOOK. The key to its easiest, fastest, most profitable use is the HUMAN labor-of-love, the CONCORDEX. Once you use it, you would not part with it FOR 5 TIMES ITS PRICE, most of its users will tell you.

*5th epochal revelation to this planet, Jesus of Nazareth having been the 4th.

To Emma L. Christensen,
beloved by thousands
of Urantians
as
"Christy"

YOUR world, Urantia, is one of many similar inhabited planets which compose the local universe of Nebadon, together with similar creations, up the superuniverse of Urantia, to that of the central universe whose capital, Uversa, our companion Uversa, Octavon is one of the seven evolutionary superuniverses of time and space which circle the never-beginning, never-ending creation of divine perfection—the central universe of Havem. At the heart of this eternal and central universe is the stationary disk of Paradise, the geographic center of infinity and the Celestial place of the eternal God.

The seven evolving superuniverses in association with the central and divine universe, we commonly refer to as the grand universes; these are the now organized and inhabited creations. They are all a part of the master universe, which also embraces the uninhabited but mobilizing universe and of outer space.
