May 5, 1994

Greetings again,

This correspondence is being sent only to our core-group, close friends, and study group leaders. We have several issues at hand:

**1) The Information Super-Highway**

Your response to SURF's first letter has been most appreciated. To those who sent or telephoned your thoughts, thank you. We have drawn a few conclusions from your comments, but we need more input. So, enclosed is a brief questionnaire. Would you take a moment to fill it out and return it in the enclosed envelope?

**2) Dues do make it happen!**

Just a gentle reminder: Some of us have been a bit tardy in sending our membership fee. We ask that you please do so. This way we will have an accurate count of those of you who are serious about participating with SURF to spread the teachings of "The URANTIA Book" and support of the Foundation. \$10.00 (or more) should be sent to the URANTIA Brotherhood Association and \$5.00 (or more) to Tim Froncek. If you need his address, call me.

**3) Are you spreading the teachings?**

We encourage all of you who receive this letter to join in our SURF mission of quiet, non-invasive, and courteous dissemination of the teachings of The URANTIA Book.

Don't wait for your friends or business associates to ask you why you are so self-assured, confident and gracefully poised, take the initiative and tell them! You can let them know about the Book in a matter-of-fact way, much as you might inform them about a movie you just saw! Stay impersonal and detached — that way if they don't take to the book, you haven't lost them as a friend. Also, for that study group you've been meaning to form, this is great way to recruit members. (We do need thousands of study groups, you know.)

Sincerely,

Will Sherwood  
President

Enclosure
